Consultant(s)	Carsten Grauel, Gerson Grauel
Client	MIB Technologie-Park Böblingen GmbH

Böblingen, a medium sized city with 50.000 people, is located in the south west of Stuttgart. The city of Sindelfingen finds itself in the immediate surroundings in the north of Böblingen.

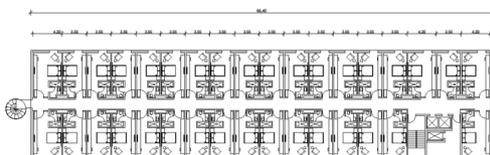

Due to its prime location and favorable connection to the road network, the MIB Technologie-Park is an attractive site for the establishment of business projects.

Grauel Consultants, highly regarded with a longstanding wealth of knowledge and experience, developed and planned the Holiday Inn Hotel.

During this process the site was optimized by the development of all ground floor and layout plans. In order to utilise optimal space, the layout had been devised through the early stages of planning.

The client is the MIB Technologie-Park Böblingen GmbH.

Grauel Consultants (GC) has been contracted to the project development advisory services, the preliminary draft and the application for the preliminary building permit.
